Confirm the Indian device class

Check how the device is used and whether it is a diagnostic test device (IVD).

Is it a Class A device that is both non-sterile and non-measuring?

Yes

Register the device online

Device registration number

The importer files device and factory details with the required safety and quality statements.

No

Apply for an import licence

Form MD-14 → **Form MD-15**

An Indian authorised agent files MD-14 with a qualifying wholesale or manufacturing licence or MD-42 registration. CDSCO issues MD-15 if it approves the application.

Before you ship

Match the device, model, factory and importer to the licence or registration.
Check the Indian label, permitted port and customs papers.

New or investigational devices and new diagnostic tests may need extra permission.
For a test or demo import, check the separate MD-16 application and MD-17 licence.

Medical Devices Rules, 2017, Chapter IIIB and rules 34-36, 40 and 44

Drug licences in Hyderabad

Find the Telangana licence for selling, supplying or making medicines.

What will your business do?

Choose the activity for the shop, warehouse or factory you plan to use.

Retail pharmacy

Sell medicines to customers.

Application	Licence
Form 19	**Form 20 or 21**

Or both, based on the medicines.

Registered pharmacist

Normally at least 10 square metres.

Wholesale

Supply pharmacies, hospitals or dealers.

Application	Licence
Form 19	**Form 20B or 21B**

Or both, based on the medicines.

Qualified person in charge

Normally at least 10 square metres.

Manufacturing

Make medicines at a factory.

Application	Licence
Form 24	**Form 25**
Form 27	**Form 28**

Qualified technical staff

Schedule M factory requirements.

Prepare your application

Check the premises, storage and staff documents.
Apply to the Telangana Drugs Control Administration and prepare for inspection.

Retail and wholesale together usually need at least 15 square metres at the same address.
The manufacturing forms shown are common routes. Some medicines need other forms or approvals.
